## **“Stop the Drift 2 – A Continuing Focus on 21st Century Criminal Justice”**

Published 4 June 2013

I have noted the contents of this report which has sought to re-examine what progress had been made in respect of the streamlining of criminal justice processes since the first report was published in October 2010, and was based around visits to six forces (not including Thames Valley Police).

The report has a number of short-term and long-term recommendations which Thames Valley Police is already alive to. I have asked the Chief Constable to keep me apprised of these recommendations along with any other significant developments that may impact on the criminal justice system within Thames Valley.
